

A better consumer financing option for your business

Increase your revenue. Approve more customers. Together, we do more.

More approvals

We facilitate the broadest range of consumer approvals - up to 30 to 40% more on average, starting with FICO scores in the 400s because we partner with more lenders.

Promotional options

There are 6, 12, and 24-month promotional financing plans available through our network of lending partners.

Fast funding

Your business receives payment when the exchange of goods or services is finalized.

Unparalleled support

Our support team guides your customers through the entire application process and also offers your business an ongoing, dedicated account manager.

Better insights

Use our on-demand portal to track real-time lending approvals for your customers.

Less paperwork

The consumer's signature and a valid ID are all that is needed to process payment with most lenders.

No fees

You never pay enrollment fees, set-up fees, or monthly fees, either. Merchant fees are only incurred when a loan is processed.

Better options

Customers have access to loans from \$500 to \$25,000 with longer terms to keep monthly payments affordable.
